**Research Analysis**

HB 3650, as introduced, provides that the Oklahoma Health Care Authority has until July 1, 2035, to establish minimum rates of reimbursement from contracted entities to providers who elect not to enter into value-based payment arrangements or other alternative payment arrangements. Until July 1, 2035, reimbursement rates will be equal to or greater than the provided amounts. Previous law set this deadline for 2027.

**Fiscal Analysis**

HB 3650 extends the date that managed care entities would need to pay the minimum reimbursement rates as set by the Oklahoma Health Care Authority (OHCA). The date is extended from July 1, 2027, to July 1, 2035.

According to OHCA, this limits the ability of the managed care entities to achieve savings for the Medicaid program; however, it ensures that providers receive the minimum reimbursement needed to cover costs and maintain access to services. The provisions do not have a direct fiscal impact on the FY27 state budget, as it extends current rates.
