

BILL SUMMARY
2nd Session of the 60th Legislature

Bill No.:	HB3662
Version:	INT
Request Number:	15448
Author:	Rep. Dempsey
Date:	2/3/2026
Impact:	Unknown

Research Analysis

HB 3662 provides that when a fixed weigh station facility is located in a general area, commercial motor vehicle enforcement is to be limited to state and U.S highways within 5 highway miles of the facility. Currently, the radius of enforcement is 25 miles from the fixed facility.

Prepared By: Brad Wolgamott

Fiscal Analysis

According to both the Oklahoma Department of Transportation and the Oklahoma Turnpike Authority, this measure will not create a fiscal impact for either agency.

According to the Oklahoma Corporation Commission, while the exact amount is unknown, this measure will reduce the amount of vehicles the agency is able to cite for being either overweight or noncompliant with Oklahoma regulations. As such, the agency will see a decrease in revenue.

Prepared By: Mariah Searock, House Fiscal Staff

Other Considerations

None.
