<b>Author:</b>	<b>Rep. Pogemiller</b>
<b>Date:</b>	<b>2/13/2026</b>
<b>Impact:</b>	<b>OHCA Medicaid State Match: \$959,094</b>

**Research Analysis**

HB 3699, as introduced, requires the Oklahoma Health Care Authority to submit and apply for, by January 1, 2027, any federal waivers, state plan amendments, or authority that is necessary to provide a supplemental reimbursement rate for physician practices, community health workers, nonprofits, or other entities or individuals enrolled in the patient-centered medical home program that currently and actively participate in a team-based, evidenced-based pediatric practice or family practice transformation model or care. Additionally, this program will collaborate with experts in pediatric health care to select models of care most appropriate for use with the patient-centered medical home program. The measure provides requirements for the supplemental reimbursement rate. The OHCA must keep a letter on file, updated annually, that verifies that the entity enrolled in the patient-centered medical home program actively participates in a team-based, evidence-based pediatric practice transformation model of care.

**Fiscal Analysis**

HB 3699 provides a supplemental reimbursement rate to providers participating in the patient-centered medical home (PCMH) program, which addresses a wide range of needs, including prevention, wellness, acute care, and chronic care, through a team-based model. The supplemental reimbursement will cover wellness visits for children from birth to age four and support providers in hiring staff to implement the program in accordance with Bright Futures guidelines and recommendations, including periodic screenings.

According to the Oklahoma Health Care Authority (OHCA), assuming 13,633 members receive the supplemental payment at \$15/month, the total annual cost is \$2,453,940, with a state share of \$834,094. The measure also requires an amendment to the 1115 waiver, which federally mandates an independent evaluation to ensure compliance. The total annual cost is estimated at \$250,000, with a state share of \$125,000.

Therefore, the total projected impact on the state budget is \$959,094.
