**Research Analysis**

The Policy committee recommendation to HB 3982 adds a definition of "temporary license plate" to mean a temporary license plate placed on the motor vehicle, travel trailer, or commercial trailer by the licensed dealer, the temporary license plate valid for ten (10) days, the sixty-day nonresident in-transit temporary license plate, and the ninety-day commercial fleet temporary license plate. If no license plate is transferred to a motor vehicle as a result of purchase or transfer, a purchaser may attest that a vehicle is to be titled or registered in another state and provide proof of out-of-state residency. Upon attestation, a 60-day nonresident in-transit temporary license plate is to be issued. The purchaser of a commercial vehicle with a valid Manufacturer Fleet Number, may also attest that a commercial vehicle is to be registered out-of-state and receive a 90-day commercial fleet temporary license plate.
