**Research Analysis**

HB 4276 as introduced, prohibits state agencies and any other public entities from issuing any competitive bidding solicitations for public improvement or public construction contracts until the entity has sufficient funds to complete the project. Counties are also prohibited from issuing any competitive solicitations for supplies, materials, equipment, information technology, telecommunication goods or services, and public improvements until the county has sufficient funds for the acquisition. All entities must obtain a written certification that identifies the funding source and confirms sufficient funds are available from the applicable officer. Any solicitations, bids, or proposals received without prior approval or certification are void.

**Fiscal Analysis**

HB 4276 creates new law and amends statutory language relating to the Competitive Bidding Act of 1974, thereby establishing certain contracting and compliance requirements primarily at the county level. The measure does not impose additional duties on state agencies or authorize state expenditures or appropriations. Therefore, the measure is not anticipated to have a direct fiscal impact on the state budget or appropriations.
