

BILL SUMMARY
1st Session of the 60th Legislature

Bill No.:	SB176
Version:	CCR A
Request Number:	
Author:	Rep. Roe
Date:	5/20/2025
Impact:	Negligeable: \$150,000.00

Research Analysis

CCR A to SB 176 restores the title.

SB 176 requires any health benefit plan that offers coverage for contraceptive drugs to provide coverage for a three-month supply at once the first time the enrollee obtains the drug and a six-month supply each subsequent time regardless if the enrollee was in the health benefit plan the first time they obtained the drug. An enrollee may obtain only one six-month supply during each six-month period. Nothing in this section will prohibit an enrollee from requesting a smaller supply of a contraceptive drug and nothing will be construed to require the coverage for any medications that could be used to terminate a pregnancy.

Fiscal Analysis

According to the Oklahoma Health Care Authority (OHCA), this measure may create a fiscal impact for HealthChoice, the state insurance, of \$150,000.00. As the state pays at least some portion of premiums for state employees, teachers, and their families, this increase may create a fiscal impact to the state budget.

According to the Oklahoma Insurance Department (OID), there is no fiscal impact to OID.

The CCR restores title to the measure, which does not change the fiscal impact. There is still a \$150,000.00 impact to OHCA, which is negligeable as the agency can absorb this impact within it's current budget. There is no impact to OID.
