Fiscal Analysis

The amendment to the floor amendment to SB 2 removes the emergency clause from the measure. This amendment has no impact on the current fiscal analysis of the measure.

The floor amendment to SB 2 introduces language related to setback requirements for wind energy structures. This measure requires the Oklahoma Corporation Commission to maintain a public database of setback provisions by county. The Corporation Commission anticipates a significant fiscal impact in order to create and maintain such a database, and would potentially require additional appropriations to cover these costs; however, exact cost estimates are unknown at this time.
