Research Analysis

SB 216 tolls the expiration date of the driver license of an inmate which expired within the last three years during the person's term of imprisonment for a period of six months after the inmate is released from the custody of the Department of Corrections. The measure clarifies procedures for the reinstatement of a revoked or suspended driver license by requiring Service Oklahoma to notify the license holder within three days of reinstatement that the license holder must apply for a new driver license. The Department of Corrections is to provide inmates with documentation to obtain a provisional license before being released from custody.

Fiscal Analysis

Engrossed SB 216 extends the expiration date of driver licenses for certain persons in the custody of the Department of Corrections. The measure requires that such persons are mailed a replacement driver license by Service Oklahoma and provided relevant documentation by the Department of Corrections required for obtaining a provisional license. The Department of Corrections is anticipated to require \$15,000 in additional hours of labor for implementation of the measure. However, the cost is minimal and will be absorbed by existing agency resources.
