Research Analysis

The conference committee substitute for SB 642 allows a general contractor to provide workers' compensation insurance to a subcontractor and their employees through a written agreement. If the subcontractor has no employees, the general contractor is considered their employer. The general contractor may deduct the insurance premium costs from the contract price or the subcontractor's pay. The measure also increases the maximum permanent partial disability workers' compensation cap from \$360 to \$375 per week beginning July 1, 2025.
