Research Analysis

The proposed committee substitute to SB 997 creates the Procurement Protection Act of 2025. The measure prohibits state-owned enterprises of a foreign adversary, companies domiciled within a foreign adversary, foreign adversary companies, and federally banned corporations from bidding on contracts or submitting contract proposals with a state agency or political subdivision for goods or services. The measure does allow state agencies to enter into contracts with such companies if there is no other reasonable option, the contract is preapproved by the director of OMES or the procurement authority of the applicable political subdivision, or if not procuring the good would pose a greater threat to the state.
