Bill Analysis

HB 1683 requires any health benefit plan that offers coverage for contraceptive drugs to provide coverage for an enrollee to obtain a 3-month supply of a contraceptive drug at once the first time the enrollee obtains the drug and a 6-month supply of the contraceptive drug at once each subsequent time that the enrollee obtains the same drug. Enrollees may obtain a 6-month supply once every 6 months. Such coverage shall not be required to cover any contraceptive drug that is not intended for regular or routine use. Enrollees may request a smaller supply.
