Bill Analysis

HB 2743 specifies that cooperative purchasing shall not include new construction. The measure requires cooperative purchases to be applied toward chargeables under the agreements or toward direct administrative costs associated with the agreements. No entity may take a percentage of the funds as profit under the cooperative purchasing agreement. The measure also defines new construction as any building not previously constructed that has not been occupied or used. Bus barns, agriculture barns, storage buildings, batting cages, or similar structures shall not be categorized as new construction.
