

Bill Summary
2nd Session of the 59th Legislature

Bill No.:	SB 1078
Version:	CS
Request No.:	1710
Author:	Sen. Murdock
Date:	03/03/2025

Bill Analysis

SB 1078 provides that any pesticide registered with the United States Environmental Protection Agency (EPA) with certain approved labels shall satisfy any requirements for a warning regarding health or safety under Oklahoma state law. Such labels must be approved by the EPA and the Oklahoma Department of Agriculture, Food, and Forestry at the time of sale, be consistent with the most recent human health assessment conducted by the EPA, and be consistent with EPA carcinogenicity classification for the pesticide.
