Bill Analysis

SB 1221 directs Service Oklahoma to enact a system that enables an individual to track the mailing status of a driver license or ID card issued to the individual by or before January 1, 2027. The system must electronically update the individual about any change to the mailing status of the credential. The measure also directs Service Oklahoma to create a system that allows individuals to request expedited delivery of the credential at the time of issuance. The measure establishes a \$25.00 fee for expedited delivery and directs the deposit of such fees to the credit of the Service Oklahoma Revolving Fund.
