

Bill Summary
2nd Session of the 60th Legislature

Bill No.:	SB 1228
Version:	INT
Request No.	2394
Author:	Sen. Sacchieri
Date:	12/10/2025

Bill Analysis

SB 1228 directs Service Oklahoma to query the Electronic Verification of Vital Events (EVVE) system prior to issuance or renewal of a driver license or ID card whenever an applicant presents an original or certified birth certificate copy as proof of identity. The EVVE system shall also be consulted when an applicant applies for a replacement. The EVVE system must provide a question-and-answer-based verification process that, with near certainty, can establish the validity of the professed identity of the applicant if it is unable to verify the validity of the birth certificate.
