

Bill Summary
2nd Session of the 60th Legislature

Bill No.:	SB 1334
Version:	INT
Request No.	2611
Author:	Sen. Hicks
Date:	12/30/2025

Bill Analysis

SB 1334 modifies language related to screening instruments to be used under the Strong Readers Act. It directs the State Board of Education to approve no more than three screening instruments, rather than no fewer than three, beginning in the 2026-2027 school year. The measure also requires the instruments to be aligned with the science of reading and identify evidence-based supports to address identified points of need.
