Bill Analysis

SB 1410 directs the Oklahoma Department of Agriculture, Food, and Forestry to operate an Ag in the Classroom Education Program. The program shall develop curriculum for students in grades kindergarten through twelve, provide training and workshops, utilize existing resources, and cooperate with the State Department of Education as needed. If funding is available, the Department may provide incentives such as teacher recognition, monetary awards, drawings for Ag in the Classroom items, and awarding certificates. The measure increases the fee for the Agricultural Awareness license plates to \$27.00 and provides for the \$3.00 increase to be allocated toward the expansion of the Ag in the Classroom Education Program into urban areas.
