

Bill Summary
2nd Session of the 60th Legislature

Bill No.:	SB 1434
Version:	INT
Request No.	2552
Author:	Sen. Jech
Date:	01/06/2026

Bill Analysis

SB 1434 authorizes the Department of Public Safety and the Department of Transportation to place automated enforcement devices at the start of a construction zone. The measure requires a sign to be placed at least 100 feet before the placed device to warn drivers that their speed will be monitored and an image may be captured while entering the construction zone. Such a device shall only capture an image and alert a peace officer if a driver is exceeding the speed limit by 10mph. Any captured image not used as evidence shall be deleted within 15 minutes. Captured images used as evidence of a speeding violation shall be deleted within 24 hours. No image may be used for identification or analysis. The measure requires the device to be calibrated every time it is moved.
