Bill Analysis

SB 1471 modifies municipal powers as they relate to waste systems. The measure authorizes the governing body of a municipality to establish, operate, and maintain municipal solid waste management systems as well as to levy fees to offset the costs of such solid waste management systems. Such fees shall be narrowly tailored to the costs of managing the waste. Monies collected in this manner shall only be expended on waste related costs outlined in the measure. The measure specifies that such fees shall be considered regulatory fees and not as a tax.
