**Bill Analysis**

SB 1496 authorizes the Oklahoma State Bureau of Investigation (OSBI) to report statistical data that does not include personal information to law enforcement and the public. The measure also authorizes the Director of the OSBI to direct OSBI to digitally scan and store papers or records instead of retaining the original papers. Such a scan must be an accurate and complete reproduction of the original papers or records and stored in a conveniently accessible manner. The measure authorizes the Director to accept gifts, bequests, devises, contributions, and grants and deposit such funding into the OSBI Revolving Fund. The Director is authorized to refuse to sell a property in a public auction if no bid exceeds 50% of the fair-market value of the property.
