**Bill Analysis**

SB 1590 creates the Oklahoma Commercial FORTIFIED Roof Program within the Insurance Department. The program shall be based on the Insurance Institute for Business and Home Safety (IBHS) or substantially similar standards approved by the Insurance Commissioner. The measure authorizes the Department to provide grants or rebates to assist with the cost of qualifying commercial roof upgrades or replacements as well as partner with insurers to encourage premium credits and discounts. Roof improvements must be examined by qualified professionals approved by the Department.
