Bill Analysis

SB 1661 requires blood service systems to comply with a physician's order prescribing for an individual an autologous or direct blood donation. The measure authorizes the system to charge a fee in an amount reasonable and necessary to cover the administrative cost to the blood service system of facilitating an autologous or direct blood donation ordered by a physician. Hospitals shall be required to allow an individual on whom a medical procedure is to be performed to provide an autologous or direct blood donation a physician orders for the procedure.
