Bill Analysis

SB 1750 authorizes state agencies required to provide an itemized budget request to provide to the Director of the Office of Management and Enterprise Services a detailed report indicating that an efficiency or a waste reduction measure implemented by the agency the previous fiscal year has resulted in realized cost savings to the agency. Such cost savings shall not impact services provided by the agency nor reduce the workforce of the agency. The measure requires the Director to confirm the savings and certify their authenticity to the Chair and Vice Chair of the Legislative Oversight Committee on State Budget Performance. Certification shall entitle the agency to an increase in appropriations equal 10% of the cost savings realized. The increase shall be used to provide bonuses to employees or may be deposited into pretax retirement accounts of employees of the agency.
