Bill Analysis

SB 1789 creates the Local Teacher Licensure Act to give school district boards of education the authority to evaluate and recommend teacher licensure or certification applications to the State Board of Education. The measure provides a review process for the Board. It states that failure of the Board to act on a recommendation within 30 calendar days will result in the automatic approval of the license or certificate, as long as the recommendation meets all statutory and procedural requirements for licensure or certification.
