Bill Analysis

SB 1865 requires students beginning in the 2027-2028 school year to complete instruction on the growth and development of an unborn person in order to graduate from a public high school. It allows the instruction to be completed by watching an ultrasound video, a computer-generated ultrasound, or an instructional video showing the stages of an unborn person's development. It allows the instruction to be integrated into one or more existing subjects. The bill allows a parent or legal guardian to opt a student out of the instruction.
