**Bill Analysis**

SB 2024 requires manufacturers of pharmaceutical products to publish a complete and detailed list of all ingredients for each product. The measure requires any product containing mRNA or other gene-based technology to provide the sequence and source of any nucleic acids as well as the delivery mechanism. Such information shall be submitted to the State Board of Pharmacy and published on the manufacturer's website. The measure imposes a \$50,000.00 fine per violation, per product and provides for the suspension or revocation of the manufacturer's right to manufacture or distribute the noncompliant pharmaceutical product within the state. The measure provides for a \$100,000.00 escalating fine for a second or willful violation as well as a \$250,000.00 fine for a third and subsequent violation. The measure establishes a misdemeanor and a term of imprisonment of up to 1 year and subjects violators to a class action.
