**Bill Summary and
Fiscal Analysis:**

SB 1971 modifies the Oklahoma Charter Schools Act requiring charter school boards to provide public comment periods, post Oklahoma Open Records Act procedures on its website, and submit to its sponsor an annual report about compliance with such requirements. The bill also requires a sponsor to post on its website and provide to a charter school's governing board the results of an annual oversight and performance review. The measure requires the review to include an evaluation of the school's academic, operational, and financial performance; an annual performance evaluation of the school's superintendent or administrator; and administration of an anonymous annual climate and satisfaction survey of students' parents and legal guardians. It directs the sponsor to take into consideration the results of the annual oversight and performance review in determining whether to renew the charter contract. The measure provides for corrective actions by both the sponsor and the SCSB.

SCSB reports that an additional FTE, at a cost of \$115,000 in salary and benefits, is necessary to effectively monitor and ensure compliance with the components of SB 1971.

Fiscal Impact provided by the Statewide Charter School Board.
