**Bill Summary and
Fiscal Analysis:**

SB 670 requires medical doctors, osteopathic physicians, physician assistants, and Advanced Practice Registered Nurses to receive 1 hour of continuing education in integrated behavioral health care. The measure also requires physicians, physician assistants, APRNs, and osteopathic physicians to provide evidence-based, validated mental health screening to each patient during a routine visit at least once annually.

OHCA estimates that the potential health codes charged would range from \$3.75 for assessment and \$29.58 for intervention. When assuming a 75/25% split for assessment and intervention and removing current coverages and their costs, the Authority believes the cost of the measure to be between \$283,916-559,883.
