| <b>Full Year Impact:</b> | <b>\$15,000,000 to \$41,000,000</b> |

#### **Bill Summary and Fiscal Analysis:**

SB 865 would create the Oklahoma Public Safety and Immigration Enforcement Act. The measure directs the Office of Management and Enterprise Services (OMES) to develop a Secure Interagency Collaboration Platform to facilitate real-time communication and data sharing among law enforcement, the Department of Corrections (DOC), and federal immigration authorities. The measure directs law enforcement agencies to report the arrest of any individual suspected of being an unauthorized immigrant. The Department of Corrections shall screen any individual that enters a state correctional facility to identify an unauthorized immigrant. Federal authorities are directed to prioritize cooperation with agencies of this state to expedite deportation proceedings. The measure subjects any agency that fails to comply with the provisions of this measure to an administrative penalty as determined by the Office. OMES is estimating a total cost of \$15,000,000 to \$41,000,000 to implement the provisions of this measure. The estimated cost includes platform development, data storage, cybersecurity compliance, biometric data processing, IT support, and compliance oversight. OMES notes that a large portion of these costs may be eligible for federal grant funding, but additional estimates and research will be required.

Fiscal Impact provided by the Office of Management and Enterprise Services
