

BILL SUMMARY
2nd Session of the 60th Legislature

Bill No.:	HB4392
Version:	SubRec
Request Number:	16393
Author:	Rep. Miller
Date:	2/18/2026
Impact:	\$0

Research Analysis

The subcommittee recommendation to HB 4392 creates the Sustainable Emerging Aviation Services Investment Program (SEA SIP). The Oklahoma Department of Aerospace and Aeronautics must designate at least five sites as Advanced Air Mobility Pilot Sites within the state. If such sites meet specified guidelines they will be subject to support and regulatory assistance from the Department. Additionally, the Department can provide funding opportunities for infrastructure, equipment, software, or other needs. The Department will retain ownership of any asset it invests in. The Department must submit a report to the Governor and legislative leadership detailing fund expenditures and the status of all projects.

Lastly, the measure creates the Sustainable Emerging Aviation Services Investment Program (SEA SIP) Revolving Fund. The fund will be made up of federal and state grants or appropriations, private donations, and revenues or fees recouped from assets in which the Department invests.

Prepared By: Keana Swadley

Fiscal Analysis

As this written, this measure does not create a fiscal impact. The Legislature may choose to fund the program, but it does not require the agency to take action without funding. Therefore, there is no fiscal impact to the state budget.

Prepared By: Mariah Searock, House Fiscal Staff

Other Considerations

None.
