

**BILL SUMMARY**  
1<sup>st</sup> Session of the 60<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>SB176</b>
<b>Version:</b>	<b>ENGR</b>
<b>Request Number:</b>	
<b>Author:</b>	<b>Rep. Roe</b>
<b>Date:</b>	<b>4/8/2025</b>
<b>Impact:</b>	<b>\$150,000.00</b>

**Research Analysis**

The engrossed version of SB 176 requires any health benefit plan that offers coverage for contraceptive drugs to provide coverage for a three-month supply at once the first time the enrollee obtains the drug and a six-month supply each subsequent time regardless if the enrollee was in the health benefit plan the first time they obtained the drug. An enrollee may obtain only one six-month supply during each six-month period. Nothing in this section will prohibit an enrollee from requesting a smaller supply of a contraceptive drug and nothing will be construed to require the coverage for any medications that could be used to terminate a pregnancy.

Prepared By: Suzie Nahach, House Research Staff

**Fiscal Analysis**

According to the Oklahoma Health Care Authority (OHCA), this measure may create a fiscal impact for HealthChoice, the state insurance, of \$150,000.00. As the state pays at least some portion of premiums for state employees, teachers, and their families, this increase may create a fiscal impact to the state budget.

According to the Oklahoma Insurance Department (OID), there is no fiscal impact to OID.

Prepared By: Mariah Searock, House Fiscal Staff

**Other Considerations**

None.
