

BILL SUMMARY
1st Session of the 60th Legislature

Bill No.:	SB891
Version:	POLPCS1
Request Number:	13405
Author:	Rep. Pae
Date:	4/8/2025
Impact:	\$0

Research Analysis

The proposed policy committee substitute for SB 891 extends the definition of *kratom product* to include synthesized kratom constituents. The polpcs also strikes language requiring packaging for powdered kratom products not in capsule form to have a calibrated measuring device in the container. Additionally, there must be a warning statement on kratom products that says that these statements have not been evaluated by the United States Food and Drug Administration and that the product is not intended to diagnose, treat, cure, or prevent any disease.

Fiscal Analysis

The proposed committee substitute to SB 891 modifies certain packaging and labeling requirements for kratom products under the Kratom Consumer Protection Act. In its current form, SB 891 is not anticipated to have a direct fiscal impact on the state budget or appropriations.
