Bill Analysis

SB 1993 authorizes any county funding a county library or metropolitan library by a special levy to reduce the levy by a resolution. The reduced millage rate shall still fall within the constitutional range of 1 to 6 mills. The measure requires the resolution to include the current millage rate, a finding that the current rate funds the library, a finding that the reduction is in the interest of the taxpayers in the county, and the effective tax year of the reduction.
