Bill Analysis

SB 674 requires charter schools, after acquiring a building not currently zoned for use as an educational building, to submit a charter school site plan to the relevant zoning authority. The plan shall demonstrate an intention to utilize the building as a charter school for at least the next 5 years. The zoning authority shall rezone the affected building for use as an educational building or return the plan to the charter school after disapproval with a written explanation for the reason for the disapproval with an option for resubmission.
