**Bill Summary and
Fiscal Analysis:**

This bill modifies language regarding student transfers. It states that if a student resides in a school district that does not offer a grade the student is entitled to pursue, the student is allowed to transfer to a school district that is adjacent to the school district, rather than inside or outside of the transportation area. It exempts such transfers from student transfer capacity limitations. If the student wishes to attend a district that is not adjacent to his or her resident district, the transfer is subject to the Education Open Transfer Act.

This bill has no fiscal impact.
